[12:29] <nightbot> Nov. 13: Need For Speed Payback PREMIERES at 12:30pm PST! Then more Super Mario Odyssey at 7:30pm PST!
[12:29] <theycallmejimbob> hey Bobbi R)
[12:29] <bobbi_ling> bonjour jimmy boi
[12:29] <ratchefan12> we'll have a dalmatian plantation
[12:30] <darksydephil> hello all
[12:30] <jetset3000> Need for Meth Payback
[12:30] <theycallmejimbob> hey Phil
[12:30] <gamemaster2003isdead> hello Phil how's life
[12:30] <bobbi_ling> KonCha
[12:30] <jetset3000> hey Phil
[12:30] <ratchefan12> hi phil
[12:30] <darksydephil> would anyone happen to know of Need For Speed Payback runs at 30 or 60fps on PS4? I can't find a definitive answer
[12:31] <bobbi_ling> i guess not TPFufun
[12:32] <ratchefan12> i found something phil that says 30
[12:32] <darksydephil> i guess i can start capturing at 30 and then change it if its 60...damn
[12:32] <ratchefan12> <https://www.vg247.com/2015/09/15/need-for-speed-30fps-ps4-xbox-one-dlc/>
[12:32] <ratchefan12> here ya go phil
[12:32] <racerbest> payback is 30fps
[12:33] <thatanonybear> i'd expect 30, but that's crap for a next gen racer
[12:33] <darksydephil> thats a different game ratchefan12 lol
[12:33] <kekon3> I'm seeing videos all capturing at 60
[12:33] <ratchefan12> lol
[12:33] <racerbest> i have the game on ps4, it's 30
[12:33] <deepdrive3254> thats from 2015 lol
[12:33] <kekon3> makes sense if its 60 it's better for racers to have a good framerate
[12:33] <ratchefan12> @DarksydePhil opps thats need for speed lol
[12:34] <racerbest> even on xbox one x it's 30 fps
[12:34] <bobbi_ling> is logviewer a new bot?
[12:34] <kekon3> oh wait, is this game day one on PC?
[12:34] <bobbi_ling> MrDestructoid
[12:34] <racerbest> yes this game is on pc also
[12:34] <darksydephil> logviewer is the logging bot
[12:34] <darksydephil> so i can go back and check chat logs
[12:34] <darksydephil> its already been immensely helpful
[12:34] <thatanonybear> logviewer i love you
[12:35] <deepdrive3254> nice i know nightbot logs stuff but that can be hard to do
[12:35] <ratchefan12> 101 dalmatians is a great movie
[12:35] <kekon3> I've been hearing mixed things on this game btw
[12:35] <thatanonybear> @ratchefan12 there wasnt enough dalmatians :P
[12:35] <ratchefan12> lol
[12:35] <darksydephil> i guess ill start it at 30fps and we'll go from there
[12:36] <gamemaster2003isdead> are we live
[12:36] <deepdrive3254> i did a jigsaw puzzle called 101 dalmatians and all the dogs were almost identical lol
[12:36] <racerbest> this game is awesome, ign and gamespot reviews are bs
[12:36] <kekon3> almost
[12:36] <racerbest> mainstream review sites shouldnt review racing games when they know nothing about them
[12:36] <kekon3> btw phil, do you need any gifs for the games this week?
[12:36] <kekon3> for cheers/bits/subs
[12:37] <darksydephil> i dont think anything this week is big enough to warrant their own gifs except

battlefront 2

[12:37] <ratchefan12> @ThatAnonyBear must have been hard for the animators

[12:37] <darksydephil> Dr Zombius is working on a set for the holidays so thats the next one ill use unless someone else makes me some

[12:38] <deepdrive3254> need for speed runs 60 fps on pc but not on console

[16:33] <genesisdestiny> those turns
[16:33] <pinkdam> is she using the handbrake though?
[16:33] <settodie> maybe if you play the game on very very very very very easy mode you could win this race.
[16:33] <cresstheangel> she uses her break and you use your hand break, thats the difference phil
[16:33] <superslygaming> phil is not really good at racing
[16:33] <djruno1> @ThatAnonyBear i'd just like to see phil pay attention to a game for once. actually putting a tiny bit of effort into them. he just lacks it. he isn't even interested in half of them. that unfortunately to me is not very fun
[16:33] <vendatus> she's not hand braking LUL
[16:33] <suckasurprise> You need to listen to Initial D music so you don't lose speed while you drift

[16:41] <i_came_here_to_something> It's a shame that Daytona USA, a game from 1994, can run at 60fps when stuff like this and Driveclub can't hit 30 in 2017. Fidelity matters in racing games
[16:41] <dolladalabill> Forza and GT run at 60fps

[16:45] <veera456> vohiyo10 to be fair, there isn't much they can do to change up the racing game formula. there's a few different styles of racing game but there's not much that could be done outside of those styles. there's the more arcade/competitive oriented ones, the open world ones, etc.

[16:45] <bobbi_ling> xox

[16:45] <kozpat> the human eye cannot see anything faster than 60 FPS
